Mockups
Prototyping

TOOLS

Sketch
Adobe XD
Balsamiq

Projects

InkTank - UX/UI

InkTank was a full start to finish UX/UI project. InkTank is the solution for tattoo seekers who feel confused and overwhelmed by the magnitude of choices of Tattoo designs, styles, and artists. This app helps tattoo seekers organize their thoughts and communicate with the community around them to brainstorm the perfect tattoo while finding the right artist at a shop nearby.

Skills Used

Personas | User Flows | Sketches
Wireframes | Mockups | Prototypes

Tools Used

Adobe XD | Balsamiq | Prott

CLMB - UI

CLMB was handed to me as a wireframe prototype and I was asked to add visual design. CLMB is created for the Salt Lake Climbers Alliance as a way to keep track of when equipment that has been permanently placed on the rock walls needs updating and replacing.
